Patrick has an extraordinary eye for creativity and quality. You can sense this immediately merely by glancing at his building and design projects. Look a little deeper, and you'll see a laser-focus on even the smallest detail. When a talented visionary can keep his eyes on the details --wow! That's the sign of an amazing project manager! I have worked with Patrick for over a year, and know that he builds more than beautiful homes and interiors -- Patrick builds quality relationships and fosters crystal-clear communication. Working on creative projects with Patrick is a delight -- every step of the way." August 3, 2008
